

# EVERY TWO SECONDS, someone's identity is stolen in the U.S.\*

If you're among the millions of American adults who have had their identity stolen, you know what a headache—and potential financial loss—it can be.

## Consider:

- 15.8 million consumers had their credit/ payment card numbers compromised last year, and 28 percent of those individuals suffered some form of fraud as a result.\*\*
- There were 13.1 million U.S. fraud victims in 2013—a 39% increase from 2012.\*
