

# Thrivent Advisor Guided

Your goals, our guidance

When it comes to your personal investment program, wouldn't it be great to leave the tough decision-making to your Thrivent financial advisor? With the Thrivent Advisor Guided program, you can.

## **A discretionary investment advisory relationship**

The Thrivent Advisor Guided program lets you give your Thrivent financial advisor discretion over your investment holdings in a model portfolio, based on your risk tolerance and long-term goals.

Your financial advisor will:

- Assess your investment needs.
- Recommend and manage a model portfolio that suits your strategy and risk tolerance.
- Review your portfolio at least annually to help keep your strategy on track.

Because it's a discretionary program, your financial advisor will manage your assets, execute trades and provide other services on your behalf to help you work toward achieving your investment goals for the account.

## Thrivent Advisor Guided highlights

- Get started with a minimum investment of \$100,000.
- Stay up-to-date with quarterly performance reports.
- Pay a quarterly fee, based on your account value.<sup>1</sup>
- Enjoy the convenience of a discretionary investment advisory relationship.

<sup>1</sup>Fees may be negotiable.

## **You approve the strategy**

Your financial advisor will recommend a model portfolio for you. He or she can answer any questions you may have about the approach to model management, asset allocation and why a certain model portfolio may be right for you.

## **Your financial advisor manages the portfolio**

Since this program is discretionary, your financial advisor handles the ongoing decisions related to the model portfolio. This includes changing which investments are part of the portfolio and rebalancing your account when appropriate.

## **You'll stay in the know**

Besides regular portfolio reviews with your financial advisor, you'll receive easy-to-read quarterly reports to keep you current with your portfolio's performance. You'll also receive a custodial account statement, at least every quarter, which shows recent transactions, dividends, expenses and tax-reporting information.

## **Need to adjust your strategy?**

No problem. If something happens that changes your goals for the account, that's fine. Just have a conversation with your financial advisor. He or she can help you decide if a different portfolio would be a better fit for your new situation.

Depending on certain factors, including but not limited to your holding period, you may pay more or less in total fees in a Managed Accounts Program ("Program") such as the Thrivent Advisor Guided program versus paying separately for services, such as the purchase of a mutual fund with a sales load.
