Plan your project
Before you visit Thrivent.com/actionteams and click on “Apply Now,” think about:
- Project specifics, like date, time and location.
- How and when you’ll promote it.
- Desired team members and what they’ll do.

Create a list of supplies
Identify the supplies you’ll need to bring your project to life and promote it to others. Make a list and plan wisely.
Next, think about how you’ll use the Community Impact Card to kick-start your project.

Build your team and start sharing
The Hub is a digital platform that provides tools to promote your project, recruit your team and celebrate the change you plan to make in your community. Once you’ve applied to lead a team, watch your inbox for an invitation to create a personalized project page on the Hub.
- Invite friends, family, church or community members to join your team.
- Share your results using social media or email.
- Post stories and photos from your event on the Hub for others to see and get inspiration from others!

Dress for success
Thrivent provides T-shirts for volunteers to wear on the day of the project. So, as you consider your team, think about how many T-shirts you’ll need and in what sizes. Plan and order accordingly so when “game day” comes, yours is a well-dressed team!

Promote your project
The Thrivent Action Teams Hub offers digital and traditional ways to promote your project, including social media and email.

Tell us more
Once your project is complete, let us know how it went on Thrivent.com/actionteams.
