

GIVE YOUR COMMUNITY A PIECE OF YOUR TIME

A broken porch step. Peeling paint. A weed-choked lawn. You can help change your neighborhood for good in just a day or two. Through the Thrivent Builds Repairs program, you can volunteer for a short-term home repair project that has long-term benefits.

Have limited time?

This Thrivent Builds Repairs program may be just what you're looking for to help your community. In just a day or two, you can help with simple outside home repairs, including:

- Caulking windows.
- Painting a house.
- Building a wheelchair ramp.
- Fixing a porch.

See what a difference a day can make.

Thrivent Builds Repairs is your opportunity to join other volunteers and spruce up a neighborhood or even help homeowners to stay in their homes. Anyone can help. All it takes are some basic skills and a few hours of your time. You'll make a big impact. Renew your community—and renew yourself, too!

Get involved!
