

**DOMINICAN REPUBLIC**  
WORLDWIDE PREMIER DESTINATION

## MAKE A DIFFERENCE. SERVE FAMILIES. BUILD COMMUNITIES.

Did you know that despite the beautiful beaches, mountains and people, many Dominicans live in houses made of tejamanil (a mixture of soil and manure), wood or even empty oil drums? The dirt floors in many of these houses produce constant dust, inviting insects and rodents inside and posing a health risk.

### Bring hope to families

You'll help create a safe and decent place to live for families in the Dominican Republic who are struggling to meet basic needs. Join a Habitat and Thrivent Worldwide trip, and:

- Change your life and the lives of others as you put your faith into action.
- Build deep relationships with your teammates and homeowner family as you build homes side by side.
- Know that your action makes a profound difference in a way that's heartening and authentic.

### Opening eyes to the world

Habitat and Thrivent Worldwide is a powerful way for members and other volunteers to express their faith. It's an opportunity to build simple homes in partnership with Habitat for Humanity Dominican Republic and the homeowner families—and to see the world with a different perspective.

### Opening the way—your trip is simplified

The Habitat for Humanity and Thrivent partnership makes participation as easy as possible. Your needs will be taken care of once you arrive in the Dominican Republic. Except for your airfare, the following costs are included:

- Transportation to and from the building site.
- Lodging in secure and clean hotels.
- Three meals a day, snacks and pure drinking water.
- Engaging and informative cross-cultural activities.
- Meaningful work at well-organized and supervised build sites.

### Take this opportunity to do good

You're invited to participate in a Habitat and Thrivent Worldwide trip to the Dominican Republic!
