

**What is a milestone?**

In the *Thrivent Builds Homes* traditional program, there are two milestones. These milestones have been established as points in which your affiliate has met specific requirements of the program and is now ready to receive a 50% draw on your funds. For every milestone you meet, it also means that you are making progress through your build and are closer to helping another family move into a simple, decent home!

**Managing your milestones**

Milestone requirements and deadlines are listed in the [online Affiliate Monthly Report \(Project Status Report\)](#) which should first be submitted by March 1, 2018, and on a monthly basis thereafter until the home is complete. We are also providing you a Milestone Tracking document on the back of this guide for your convenience.

**What happens when I meet all the components of a milestone ... how do I access the funds?**

The funds from the *Thrivent Builds Homes* award will be made available to your affiliate in two equal draws. Throughout this project you will be in close contact with your Habitat for Humanity International Organizational Development Consultant (ODC-T). Your ODC-T provides leadership to the program and will authorize the release of funds from HFHI. Each milestone must be met in the order outlined in the Milestone Tracking on page 2.

**Where does the funding come from and how can our affiliate expect to receive it?**

Thrivent Financial provides a percentage of the funding for your *Thrivent Builds Homes* project(s).

Please note that the funding provided by Thrivent Financial is administered by HFHI. As a result, you should expect the funding to be disbursed to your affiliate in two equal draws from HFHI. These funds will be remitted to your affiliate through Electronic Funds Transfer (EFT) using the bank account information submitted in your Affiliate Funding agreement. Local Thrivent member networks and communities are encouraged but not required to raise funds to support the building project.

**Where do I submit required documentation?**

All documentation identified as needing to be submitted to HFHI should be emailed to:
