WHY MEDICARE SUPPLEMENT INSURANCE?

If you have questions about Medicare, you're not alone. There's a lot of information out there—so much that it can make it difficult to get a clear answer. What medical expenses are covered? Which ones aren't? Most importantly, you want to be sure Medicare supplement insurance will provide the supplemental benefits you need if you require medical treatment.

Thrivent can help answer these and other important questions; some of which you may not have thought about. We can also show you how Medicare supplement insurance from Thrivent might help fill some of the gaps in your traditional Medicare coverage. Our goal is simple: to help you make a decision—with confidence.

OUT-OF-POCKET COSTS HAVE INCREASED

An individual's out-of-pocket costs of participating in Medicare have increased since the beginning of the Medicare program, including:

- Deductibles and copayments
- Monthly premiums
- Uncovered expenses

As you may know, these gaps in Medicare are your out-of-pocket responsibility. Out-of-pocket expenses, combined with ever-increasing healthcare costs, may lead to a significant financial burden.

OPTIONS TO HELP FILL IN THE GAPS

Let us show you how a Medicare supplement insurance contract from Thrivent may help fill some of the “gaps” in your current Medicare coverage. We’ll review the details of the contract to show you how it can fit your needs.

OTHER THINGS YOU NEED TO KNOW

Exclusions

Thrivent's Medicare supplement insurance contracts cover only those expenses that are approved for payment by Medicare (except as provided in the Foreign Travel Emergency Benefit included with some plans). It does not cover or pay for:

- Care, treatment or supplies to the extent that you are entitled to have payments made under:
 - Medicare or any other governmental program (except Medicaid);
 - Any other Medicare Supplement Insurance contract; or
 - Any state or federal workers' compensation, employer's liability, or occupational disease law, or any motor vehicle no-fault law;
- Services for which no charge is normally made in the absence of insurance; or
- Items or services for which you have no legal obligation to pay.

Medicare deductible and copayment changes:

If Medicare changes its deductible and copayment amounts, the contract benefits will also change. When this happens, your renewal premium may increase.

Renewability

You have the right to continue coverage for life. We can cancel your contract only for non-payment of premiums or for material misrepresentation in the application.

Premiums may increase as Medicare benefits change and health care costs increase. However, your premium will never be raised due to your individual claim history.

30-day trial

If you are not satisfied with the contract for any reason, you may cancel within 30 days from when you first receive your contract.

Definitions

"Hospital" means an institution which is defined as such by Medicare. It does not include nursing homes, convalescent homes, extended-care facilities, or any other facility not covered by Medicare.

"Excess Charges" is the difference between the Medicare Part B-approved expense and the amount charged by the attending physician, which can be no more than the limiting charge allowed by Medicare (coverage for this only available under Plan F and Plan G).
